

CABANACOAST offers a large fabric swatch program to our dealers. Having large fabric swatches available enables a customer to better envision a fabric pattern and to visualize how it will look on the furniture.

Our standard large fabric swatch size is 12" x 26" and includes a serged edge and a fabric label. Grommets can be added at extra cost; Dealer must specify exact grommet placement. Some Dealers prefer to clip swatches to hang.

Full sets or fill in swatches are available (our stocked fabric program selection changes every year; a Dealer may order swatches of the new fabrics which have been added to our stocking program to round out their existing swatch set.)

Additional sizes can be made upon request. Please contact customer service for additional information.
