

Over time and use, the original repellency treatment of your fabrics is diminished, making periodic cleaning and re-treatment necessary. The key to keeping your fabric looking great and extending its life is periodic cleaning followed by repellency re-treatment.

This is where the combination of 303® Multi-Surface Cleaner & 303® Fabric Guard is *THE* winning combination.

- RV covers
- RV Fabric Awnings
- Pop-up Trailers
- Tents
- Fabric Convertible Tops
- Car Covers

303® Multi-Surface Cleaner

303® Multi-Surface Cleaner has been recommended by and for Sunbrella® fabrics for many years. It rinses residue-free and is the best cleaner for fabrics prior to "re-treating". It provides excellent value and cleaning power without any harmful chemicals that could damage fabric or stitching. Safe for all water-safe fabrics and vinyl surfaces.

Key Benefits:

- Safely brightens & rejuvenates surfaces & fabrics
- Removes dirt, grease, oil, pet stains and more
- Extends the life of your outdoor furniture
- Safe for use on water-safe materials.

Tips for Use:

1. Spray 303® Multi-Surface Cleaner on spot until wet.
2. Agitate with a medium-soft brush or wet cloth.
3. Wipe up stain and excess cleaner with a damp cloth, rinsing out cloth in clean water as necessary.
4. Let fabric dry.

Note: For tough stains, use warm water and increase agitation and soak time. Repeat if necessary.

303® Fabric Guard

The only product recommended by and for Sunbrella® fabric to replenish and restore lost water repellency. Fabrics should be retreated after a thorough cleaning using 303® Multi-Surface Cleaner to keep them looking great year after year! 303® Fabric Guard offers unbeatable protection against soiling, water-based and oil-based stains!

Key Benefits:

- Treats Synthetic & Natural Fibers & Blends
- Protects Umbrellas, Awnings & Canopies
- Protects Cushions/Pillows
- Seals Seams

Tips for Use:

1. In a well-ventilated area, spray on 303® Fabric Guard until wet, overlapping sprayed areas. Do not saturate.
2. For best results treat in warm weather, at least 70°F up to 120°F.
3. Allow fabric to cure for 6-12 hours in a clean, dry environment before using or storing.

Note: Use only on newly cleaned, dry fabrics.
