

Origin Table & Bench Collection

SOL Sintered™ Stone is crafted from natural, recycled materials using mineral by-products from the stone industry such as marble and granite. Diverting these materials from landfill makes SOL Sintered™ Stone a sustainable and ecologically recyclable product.

These minerals are then compressed under high pressure and heat, crafting a non-porous, solid material. SOL Sintered™ Stone is also impact and chip resistant and resilient, unlike natural stone.

SOL Sintered™ Stone features & benefits:

Scratch Resistant, Mohs (hardness) 6 Degrees

Fire Resistant, 1280°C / 2336°F

Frost Resistant, -80°C / -112°F

UV Resistant

Chemical Resistant

Stain Resistant,

Absorption Rate $\leq 0.5\%$

Food Safe

Easy to Clean

Ecologically Recyclable

And beautiful!

Monaco Stone Dining Tables
