

Sectional ganging stabilizes and provides uniform separation between sectional furniture modules to maintain the streamlined look of your modular outdoor furniture configuration. We use 3 ganging connector types, which are dependent on the sectional design:

Electroplated Steel Sectional Clip (S, M, L sizes)
Sectional Buckle
VELCRO Strap

1 Sectional Connector is included at no extra cost for every 2 sectional modules purchased. Additional clips, buckles or straps are available for purchase; please refer to the Accessories section of the price list.

Electroplated Steel Sectional Clips and Sectional Buckles are available in Black only; VELCRO Straps are available in Black or White and will be provided in the appropriate colour that is closest to the finish selection that is ordered.

INSTALLATION INSTRUCTIONS

Sectional Clips:

Sectional clips are installed on the underside of the modules and are not visible once installed.
 Line up two adjoining modules and position the clip to straddle the two side sections on the underside of the modules as shown in the picture below -your furniture and clips may not be exactly as shown.
 Push the clip firmly into position until the bottom of the clip fits snugly around the 2 frame sides.

Sectional Buckles:

Sectional Buckles are installed on the underside of the modules and are not visible once installed.
 Line up two adjoining modules and position the Sectional Buckle to straddle two adjacent bolts on the frame underside. Your furniture may not be exactly as shown.
 Loosen the bolts. Slide the Sectional Buckle over each bolt and re-tighten the bolts to secure the Sectional Buckle to connect the 2 modules.

VELCRO Straps:

VELCRO Straps are installed either on the underside of the modules or around the back legs and may or may not be visible once installed. Line up two adjoining modules and position the VELCRO Strap to straddle the two side sections on the underside of the modules or on the back legs as shown in the picture below -your furniture and VELCRO Straps may not be exactly as shown. Wrap the VELCRO Strap firmly into position so that it fits snugly to connect the 2 modules.
